Option A - If a Tandem Skydive at your chosen centre is £270, you will need to raise at least £540 in sponsorship money, so that £250 covers the cost of your skydive with the remaining £250 or more going to charity.

If you raise less than expected, don't worry you can still jump. The amount raised is divided in half. i.e. if you only raise £300, £150 would be donated to your charity and £150 would go towards the cost of your skydive with you making up the shortfall required by the centre on the day from your own pocket. This ensures that a minimum of 50% of what is raised goes to the charity.

Please note that whilst you jump for free if you raise the minimum sponsorship money, it isn't truly a free jump, as part of the money covers the course cost. Whilst this is considered to be acceptable as skydiving is considered to be more challenging than some more traditional fundraising events, please bear this in mind making every effort to raise more than the amount required to help your chosen charity.

Please also note that if you chose to have your skydive videoed (Tandem & AFF Level 1), you cannot claim this cost back from your sponsorship money.

Option B – there is no fundraising target. You just raise what you can with 100% of what is raised being sent to the charity.
